BIOTECHNOLOGIES FOR HEALTH ITALIAN AND CUBA: COMPARING EXPERIENCES

Rome, 13th November 2018

ENEA – Lungotevere Thaon di Revel n. 76

ENEA, in collaboration with the Embassy of Cuba, organizes an info day at its Rome Headquarters with the participation of a high level delegation of BioCubaFarma, a complex of pharmaceutical and biotechnological industries located in Havana, consisting of 32 companies, over 20,000 employees, and 61 production plants. The complex has a portfolio of 700 registered drugs, marketed in 53 countries. The delegation will be represented by the highest officials of BioCubaFarma: the Vice President, Dr. Mayda Mauri Pérez and Dr. Agustín Lage Dávila, BioCubaFarma scientific consultant. Devoted to companies, professionals and sector's associations, research bodies and institutes, the initiative is aimed at presenting the Italian industry the various opportunities for direct investment in and industrial collaboration for current and future BioCubaFarma's projects.
