

# ENEA - ICTP AGREEMENT

Agenda 2030 Goal: Partnerships for the goals

ENEA and ICTP (International Centre for Theoretical Physics) renewed a collaboration agreement in 2018 encouraging the international mobility of researchers from developing and newly industrialized countries operating in scientific fields such as physics of matter, applied physics, astrophysics, energy, the environment and life sciences.

## ENEA Activities:

ENEA funds an International Researcher Mobility programme. The joint ENEA-ICTP committee selects the best talented scientists who are offered the opportunity to undertake high-level training and research in the ENEA laboratories for a period of up to 12 months.

## Duration:

2 years
