

Side Event / Work Session

INTERNATIONAL COOPERATION AND TECHNOLOGY TRANSFER PROJECTS IN DEVELOPING COUNTRIES

Venue
Italian Pavilion

Marrakech, November 11th, 2016 | 13.00 - 15.00

In the aftermath of the Paris Agreement and of its entering into force, countries are called to implement their NDCs.

Technology transfer and international collaboration is one important mean to implement NDCs. The Italian Ministry of the Environment and the Protection of Land and Sea – MATTM fosters the Technology Transfer Mechanism and is also active in bilateral collaboration with several developing countries. ENEA has been involved by MATTM to contribute to the implementation of such activities. The goal of this side event is to illustrate the activities of ENEA in this issue during the last year.
